TALIA

TALIA

WITH OUR SECTORAL
EXPERIENCE FOR
MANY YEARS.

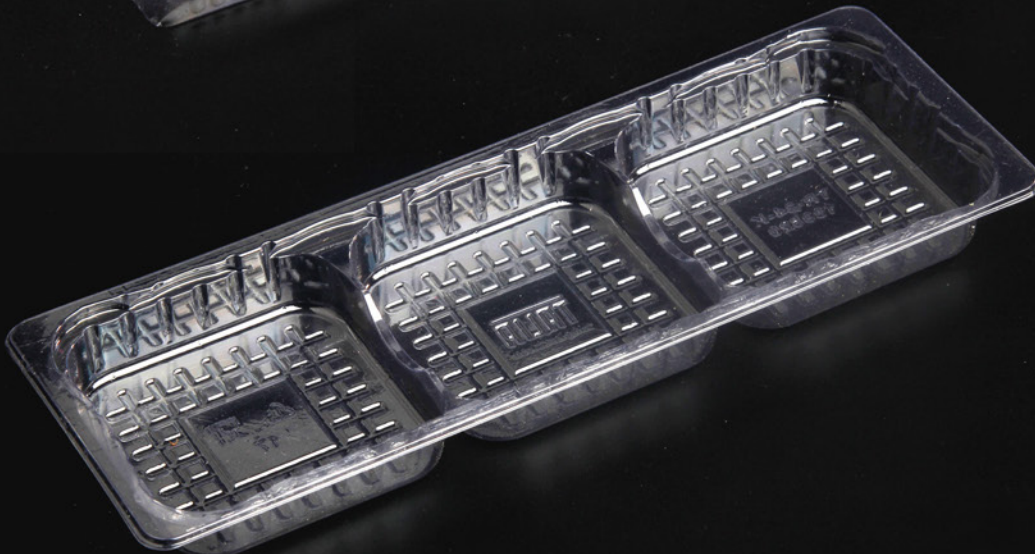

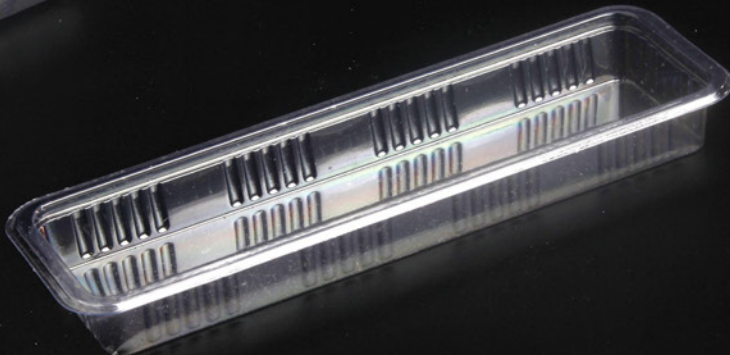

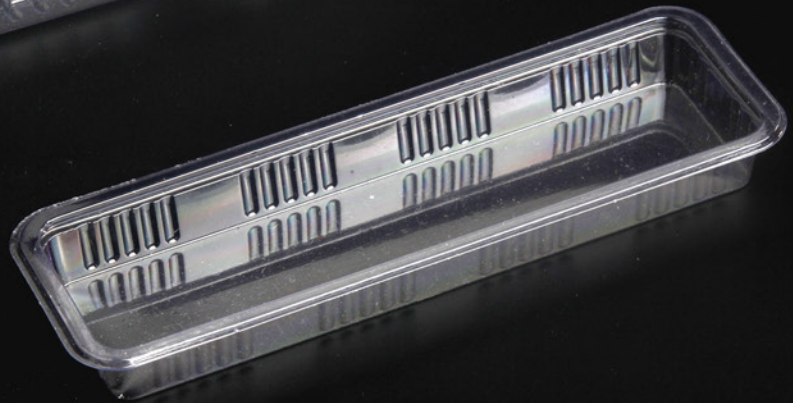

Talia Plastik was established in 2018 to bring an innovative and environmentally friendly production approach to the PET and PP thermoform industry. Production capacity in a total closed area of 14.000 m² is 16.000 tons per year. It is one of the high-tech and efficient disposable PET food containers and PP&PS plates producers of Turkey, with two new technology PET and PP Extruder and thermoform machines.

Having mould making department inside factory, Talia Plastik develops new models quickly and ergonomically. It contributes to the disposable food packaging industry by trying to understand the supply chain from Talia Plastik manufactures PP&PS Plates, hinged lid PET and PP leakproof containers: clamshell containers, PET and PP round salad containers, sauce containers, oval containers, baklava and cheese containers.

It also produces separator and blister products for biscuits, chocolates and confectionery industry. Talia Plastik is open to new projects and ideas with all its experience and production capacity

PET SEPARATORS FOR CHOCOLATE, BISCUIT & JELLY

Special dimensions for your foods

■ We have our own mould making / tooling department in our factory, so we are open to your special requests for your foods, biscuits, chocolates with low tooling cost and fast periods of new moulds.

We have 600 tons / month production capacity.

Deli Container is made with a hinged lid and is one-piece in its design for safer handling. Its lid is leak-resistant to prevent messes and it will not break down when in contact with foods. It is made with a dotted tab that provides a slip-resistant grip for easy opening, and ribbed sidewalls give the container added strength when it is full and stacked with others.
